

[Nano]Technology for Equitable Global Development: What are the Chances?

Kathy Jo Wetter, ETC Group

5 November 2009

“Governing Emerging Technologies:
Regulating Risk & ***Ethical Dimensions*** in Development”

- Intellectual Property - implications of cross-sectoral nature
- Trade Regimes / Technology Transfer
(TERI. 2009, *Emerging Asia contribution on issues of technology for Copenhagen*, New Delhi: The Energy and Resources Institute)
- Market Disruptions - labor impacts; implications for commodity dependent developing countries

(Stuart Blackman, “Promises, Promises,” *The Scientist*, Volume 23, Issue 11, p. 28.)
